About Us

Founded in 2016 by IIT, Stanford and Facebook alumni. Coding Ninjas is one of the largest online coding EdTech companies in India. We teach 20,000+ students annually via our online platform.

Our founders have experience of working with Amazon, Facebook, Cars24, and other top startups in India. As pioneers in EdTech, we are on the path to become India's most loved coding education platform.

Dhawal Parate **Kannu Mittal** **Ankush Singla**

Mission statement

At Coding Ninjas, our mission is to continuously innovate the best ways to train the next generation of developers and to transform the way tech education is delivered.

From our Alumni

Students placed in FAANG companies

Pareksha Manchanda

Competitive Programming

While working in my job, everything I learnt and especially the web development part helped me to deliver great performance in the projects in the company. Without the Career Camp program at Coding Ninjas, I don't think it would have been possible to accomplish this. All the lectures of Ankush Sir, Parikh Sir, and Manisha Mam were so well made in explaining the concepts and made me an effective programmer.

Non CS students

Satwika Bhattacharjee

Machine Learning | Java Foundation with Data Structures Combo module

My experience with Coding Ninjas has been wonderful. These courses strengthened my concepts and helped me during the placement interviews as well as with my projects. The courses are well structured and include all the important concepts. The faculty members were really amazing, especially Ankush Sir and Manisha Maam. I would definitely recommend Coding Ninjas to everyone.

Karan Dua

Competitive Programming

I took a course on Competitive Programming from Coding Ninjas, and I must say it really helped improve my data structures, algorithms concepts as well as my problem solving abilities. After taking this course, I was able to solve most of the practice problems myself or by taking a few hints. Finally here I am working at Amazon, grateful to Coding Ninjas.

Tanuj Kalra

C++ with Algo

I would like to thank Coding Ninjas India for helping me throughout this journey. This journey was worthwhile and fruitful since I knew that Coding Ninjas had my back. Their C++ with DS-Algo course is marvelously designed. Nidhi mam and Ankush sir and just amazing, I owe my placement at Samsung Research Institute to them.

Pradhuman Shankar Saxena

Competitive Programming

I got to know about coding ninjas in my 7th semester, my preparation was zero before joining the course. Then I took a course of competitive programming which helped a lot to understand algorithms overall. Afterwards I decided to move to Bangalore somehow and continue studying for FAANG. So I moved to Bangalore and got placed at Amazon.

Non engineering students

Richa Sharma

C++ Foundation with Data Structures Combo

Coding Ninjas is one of the best learning platforms. The course content was very informative and well structured. The way Ankush Sir and Nidhi Ma'am explain a topic is commendable. My approach towards solving a problem completely changed, which helped me a lot in enhancing my programming skills and it made me feel more confident.

Shivam Vishwakarma

Java Foundation with Data Structures Combo module | Interview Preparation (JAVA)

I joined Coding Ninjas to learn coding for my placements preparation.
The highlight of my experience was the course being well structured having covered basic as well as advanced level with plenty of Coding Problems. One recommendation to all the budding coders: If you want to start from scratch with no knowledge of coding, please start your coding journey with Coding Ninjas
